

# Nurislam Zaripov

- 3 July 1999 (19 years)
- Kazan
- +7 (927) 433-16-52
- [nurislam.zaripov.1999@gmail.com](mailto:nurislam.zaripov.1999@gmail.com)
- [@scaleflake](#)
- [github.com/scaleflake](https://github.com/scaleflake)
- [github.com/n1xDev](https://github.com/n1xDev)

## Interesting areas and directions

### Decentralized systems, cryptography:

- [P2P protocols](#)
- [Blockchain](#)
- [BitTorrent](#)
- [TOR](#)
- [I2P](#)

### Big data and machine learning:

- [Data visualisation](#)
- [Genetic algorithm](#)
- [Statistics](#)
- [Artificial neural networks](#)
- [Data mining](#)

### Algorithms, optimization, optimization algorithms:

- [Self-testing code](#)
- [Test-driven development](#)
- [Performance testing](#)

### Other:

- [Quantum programming](#)
- [Game development](#)

## Skills and technologies

- Front-end: JS, HTML, CSS, jQuery, AJAX
- Node.js, express.js, Electron
- C++, STL
- OpenGL, GLSL
- Python, Tensorflow, Keras, Matplotlib, Numpy
- Linux, Git

## Work history

- dApps programmer (front-end and smart contracts), 03/2018 - 06/2018  
PLC "Современные технологии", Kazan, Russia
  - Programming smart-contract logic for Ethereum in the Solidity programming language
  - Design and development of the web interface of a decentralized application
  - [github.com/scaleflake/onder](https://github.com/scaleflake/onder)
  - [github.com/scaleflake/onder-electrocars](https://github.com/scaleflake/onder-electrocars)

## Personal projects

- [github.com/scaleflake/engine](https://github.com/scaleflake/engine)
- [github.com/scaleflake/darcy](https://github.com/scaleflake/darcy)
